Subject: INVITATION FOR RESEARCH ARTICLES

Dear Colleagues and Young Scientists,

Centre for Research in Molecular Medicine (CRiMM) and Institute of Molecular Biology and Biotechnology (IMBB), The University of Lahore, announces with great pleasure, the institution of a new journal related to biomedical sciences entitled: “Pakistan Journal of Molecular Medicine (Pakistan J. Mol. Med.).” This will be a refereed, bimonthly journal covering the areas of biochemistry, biotechnology, environmental sciences, forensic science, medicine, microbiology, molecular biology, pathology, pharmacology, physiology, toxicology and other biomedical sciences. Its first issue will appear during February, 2014 (Inshaa-Allah). Detailed Instructions to authors are enclosed.

You are, therefore, requested to submit your manuscripts and reviews to:- Prof. Dr. M.H. Qazi, Editor-in-Chief, Pakistan Journal of Molecular Medicine, CRiMM, The University of Lahore, Lahore-54000, Pakistan, as hard copies (one original and two photocopies). You must also e-mail your manuscript/s to drmhqazi@uol.edu.pk and pjmm.uol@gmail.com.

With best wishes.

Editorial Committee:
PROF. DR. M.H. QAZI
PROF. DR. MUSHTAQ A. SALEEM
PROF. DR. SYED SHAHID ALI
Pakistan Journal of Molecular Medicine (Pakistan J. Mol. Med.) is a bimonthly journal, being published by the Centre for Research in Molecular Medicine (CRiMM) and Institute of Molecular Biology and Biotechnology (IMBB), The University of Lahore, Lahore-54000, Pakistan. This journal accepts the articles and reviews (invited and non-invited) in the disciplines of biochemistry, biotechnology, environmental sciences, forensic science, medicine, microbiology, molecular biology, pathology, pharmacology, physiology, toxicology and other biomedical sciences.

**Manuscripts submission:** The manuscript submitted to the, *Pakistan J. Mol. Med.* must be original, unpublished and is not being considered for publication elsewhere. The articles in English language only will be accepted for publication. The manuscripts in the journal can be submitted as full-length papers or as short communications. There is no maximum page limit for invited reviews but for non-invited reviews it is up to 15 printed pages. The manuscripts, complete in all respects and printed strictly according to the prescribed style should be sent in triplicate (one original and two copies) to, Dr. M. H. Qazi, Editor-in-Chief, *Pakistan Journal of Molecular Medicine*, University of the Lahore, Lahore-54000, Pakistan. Articles must also be sent electronically through our website (www.pjmm.uol.edu.pk), or e-mailed at, drmhqazi@uol.edu.pk and pjmm.uol@gmail.com

**Referees for manuscript:** A list of three potential referees, at least one from technologically advanced countries, with their complete addresses and functional e-mail, must be provided by each author to speed up evaluation process, without which the further processing of the manuscript will be delayed.

**Manuscript preparation:** The manuscript must be written double-spaced throughout on one side of paper sized 8½” × 11” (22 × 28cm) with a 1” (2.5cm) margin on all sides. The manuscript should be prepared in the following sequence, (those not conforming to the instructions will be sent back for reformatting without review):

1. **Title page,**
2. **Abstract,**
3. **Text** (to be subdivided into, “Introduction”, “Materials and Methods”, “Results” and “Discussion” or may be merged as “Results and Discussion”),
4. **Acknowledgements,**
5. **References,**
6. **Footnotes,**
7. **Tables,**
8. **Figures** and
9. **Legends.** Each section must start on a separate page.

**Title page:** This page should include, a) Complete title which should be informative and concise; b) Complete name/s of Author/s; c) Institution/s and address/es of author/s; d) Total number of figures; e) Running title; f) Name, address, e-mail and telephone number of corresponding author.

**Abstract:** An abstract should be 200-250 words long for full-length papers and 100-150 words for short communications. The abstract should be written in complete sentences, and should state briefly the objectives, the experimental design, the significant observations and conclusions, without any reference. Abbreviations may be used, provided they are defined on first mention in the abstract and in the main text. This should be followed by 5-8 Key words, separated by commas, excluding those appearing in title.
**Text:** Should be divided into four sections with centrally placed headings, which will appear in bold and uppercase. All other headings will be treated as side headings and will appear in low case italics. The main text should be started with: 1) “**Introduction**” which should be clear with concise statement of the problem and the objectives of the investigation, along with the relevant literature on the subject; 2) “**Materials and Methods**” should provide an adequate procedural details including statistical tests; 3) “**Results**” which should also be concise and clear explained with the help of tables, figures and any other illustrative material; 4) “**Discussion**” this should provide brief interpretation and justification of your results supported by previous studies. You may add your own justifications and comments based on sound knowledge and information; 5) “**References**” Limited number of references, relevant to the research manuscript, should be cited in the text and reference section. The references should be cited in the text by giving the author’s name followed by the year, when given after complete sentence *e.g.*, (Qazi, 2008). In case this reference is at the start of sentence, it will be “Qazi (2008)”. Same principle will be followed in the references with two authors which will be connected by adding “and” *e.g.*, (Saleem and Ali, 2010) or Saleem and Ali (2010) when appearing at the end or start of the sentence, respectively in the text. In case of three or more authors, the reference should be cited as (Qazi *et al.*, 2009) or Qazi *et al.* (2009), when appearing at the end or start of the sentence, respectively. In reference section, names of all the authors must be mentioned in upper case, with their last name appearing first, followed by first letter of remaining names also in upper case *(e.g.,* Mahmood Hussain Qazi may be cited as, “QAZI, M.H.”). Cited references must be arranged in alphabetical order without numbering. In case of more than one reference by the same authors is used in the manuscript, add “a, b, c, etc.” after the year in both text and reference section *e.g.*, (GORE *et al.*, 2008a, 2008b). The name of the periodicals or books must be in italic and abbreviated according to the latest version of World List of Scientific Periodicals. The volume of the periodical must be in bold. Some examples of the references as they must be given in manuscript are given below:

**In Journals:**

**In Books:**

Do not list the references of the articles that have been submitted but not accepted for publications. References to such work should be noted in the text as “unreported data”.

**Acknowledgements:** Research grant donors, Funding agencies and help of contributing colleagues and institutes may be acknowledged.

**Tables:** Should be created on A4 paper using the same word processing software as used for the text. Tables must be self-explanatory and not the duplicate of the data given in the text. The
Legends of the tables must concise and comprehensive. Don’t use vertical lines in the tables for separating columns. Legends of the tables should be typed on separate page. Necessary Footnotes may be given in tables where all abbreviations and symbols used in the table must be explained. All tables must be numbered sequentially in Arabic e.g., Table 1, Table 2 and so on.

Illustrations: In general, to achieve greatest fidelity and rendition of detail it is preferable that the printer work directly from original photocopies or drawings with a little reduction as possible. Illustrations should be prepared for reproduction as halftones or line drawings. All illustrations are to be submitted in complete and finished form, with adequate labeling, each on a separate sheet. All the legends to the illustrations must be printed on separate page. The photographs should be glossy black and white.

General Instructions

- Number all pages of the manuscripts consecutively.
- Corrections to the manuscript should be either typed or printed legibly in ink.
- Do not use abbreviations or mathematical numbers to begin sentences. Numbers should be spell out in such cases.
- Numbers indicating times, weight and measurements are to be in Arabic numerals when followed by abbreviations e.g., (2 mm; 1 sec; 3 ml).
- Spell non-technical terms according to the current Webster’s International Dictionary.
- All scientific names of plants and animals and names of periodicals should be in italic.
- The word “Figure” in the text should not be abbreviated except when appearing in parenthesis.
- Dates should be written as follows: April 20, 2012.
- Source/manufacture of equipment and chemicals should include city and country.

Page charges: The Editorial committee of Pakistan J. Mol. Med., has decided to charge Rs. 1000/- for each published article up to six printed pages with black and white illustrations. The additional pages will be charged at the rate of Rs. 200/- per page. All the cost of coloured pages will be the responsibility of the author.

Page-proofs and reprints: One set of proofs will be sent to the corresponding author. Corrected version must be returned to the Editor-in-Chief within one week. No reprints will be supplied to authors. PDF version of the article can be downloaded directly from our website (http://www.pjmm.uol.edu.pk) free of cost.

Copyright: After publication, the copyright of the article shall be the property of Pakistan J. Mol. Med. Permission for any type of reproduction must be obtained from the journal.

Correspondence: All the correspondence should be addressed to: Dr. M.H. Qazi, Editor-in-Chief, Pakistan Journal of Molecular Medicine, CRiMM, The University of the Lahore, Lahore-54000, Pakistan.
